

CANNON PARK PRIMARY SCHOOL

NEWSLETTER

Issue Number 06 – Friday 9th October 2026

Dear Parents/Carers,

This week, during Monday's assembly, I shared a wonderful story called *Words and Your Heart*, our Book of the Week. The story encourages us to think carefully about the words we choose and the powerful impact they can have on others. It reminded us that even the simplest kind word can make a real difference, particularly to someone who may be finding things difficult. As I have visited classrooms and spent time around the school this week, I have been delighted to hear so many positive and encouraging interactions between children and staff. These small moments of kindness help to create the caring and supportive community we are proud of here at Cannon Park. A kind word can go a very long way.

Have a wonderful weekend,

Mr Ray

*Each week, we share a new word with the children to develop their vocabulary.
Could you use it at home this weekend?*

Word of the Week	compassionate
Definition	showing kindness and care when someone is upset, hurt, or needs help
Synonyms	caring, kind, thoughtful

Dates for your diary

When	Who	What
Monday 19 th October	Year 4	Trip to Lunt Fort
20 th & 22 nd October	Whole School	Parents' Evenings
26 th October – 30 th October	Whole School	Half Term Holiday
16 th November – 18 th November	Year 6	Willersley Castle Residential
Friday 20 th November	Year 5	Trip to Black Country Museum
Thursday 17 th December	Whole School	Last day of school for the Autumn Term
Friday 18 th December	Whole School	Training Day – School is closed

Letters sent home this week

Year Group(s)	Regarding
Whole School	Parents Evening

Birthday Treats

If you would like to send in a sweet treat for other children to mark your child's birthday, please ensure you send in individually wrapped items, rather than a full cake, which would need to be cut up. These sweets will be handed out at the end of the day with children so that parents can decide if and when children eat these sweets. **Please remember this must be nut-free.** This will also enable us to ensure any allergies are catered for. Please speak to your child's class teacher if you have any questions.

Harvest Festival Foodbank Donations

Thank you to so many of you for donating to our Harvest collection, which will be collected by a local food bank. Your kindness is very much appreciated.

Celebrating our Learning Reception

What a fantastic week of learning the children in Reception have had! This week the children have enjoyed learning about Space as part of *World Space Week*. The spaceship role play area we set up has been a huge hit! The children worked so well together planning a trip to the moon! We talked about gravity and imagined what it would be like to float around in Space! We even found out how astronauts drink water when they are on their missions! In phonics we have continued to learn new sounds and this week we focused on *m* and *d*. We enjoyed creating dinosaur feet and monsters using our cutting and joining skills. We investigated with magnets to find out what objects were magnetic and which objects were not. In maths we continued to practice our subitising skills and had lots of fun extending our knowledge of repeated patterns using actions. The children loved getting up in front of the class to demonstrate their patterns and have the class copy them! It's wonderful to see the confidence grow in the children each week!

Thank you for sending in your child's reading books each day. We have enjoyed hearing them read their books this week and want to thank you for your support at home too! We will continue to change their Bug Club book each week – please be aware that it might not be the same day each week.

Next week is our whole school Art Week, so we look forward to seeing you child's art-themed homework that we have set this week.

We also wanted to say a huge thank you for your incredible food bank donations for our Harvest this year. We have been blown away by your kindness and generosity.

Have a lovely weekend! Miss Swain, Miss Williams and Miss Thompson

Year 1

What a wonderful and memorable week it has been in Year 1! From solving a mysterious classroom crime to exploring new learning across the curriculum, the children have thrown themselves into every challenge with enthusiasm and excitement. In English, we had a mystery to solve! Over the weekend, a pig had somehow sneaked into our classroom, turned everything upside down and left muddy hoof prints everywhere. We were shocked! Luckily, Miss Brett had photographic evidence of the destruction, and we spent some time discussing who we thought the culprit might be and why he had caused such chaos. Soon, we discovered that it was none other than the Big Bad Pig from our new story, *The Three Little Wolves and the Big Bad Pig*. We enjoyed reading the story and comparing it to the traditional tale. We laughed a lot. Throughout the week, we retold the story through role play, learned how to sequence events using the words *First*, *Next* and *Then*, and explored how to identify the beginning of a story. Next week, we will continue identifying the key parts of a story before retelling *The Three Little Wolves and the Big Bad Pig* independently. In maths, we have begun our new topic on addition and subtraction. So far, we have been introduced to the part-whole model and have practised using it to add quantities and numbers together. We finished the week by learning how to write matching number sentences. We discovered that every part-whole model is like a family, and those family members can be represented in different number sentences. In Science, we became material detectives and went on a materials hunt around the school. We investigated which materials different parts of our school are made from and discussed why those materials had been chosen. For example, we discovered that windows are partly made from glass because glass is transparent, allowing us to see through it. In geography, we learned what a settlement is and explored the three main types: villages, towns and cities.

CANNON PARK PRIMARY SCHOOL

NEWSLETTER

Issue Number 06 – Friday 9th October 2026

We identified Coventry as a city and compared it to other types of settlements. In RE, we explored the actions someone with a Sikh worldview might take to demonstrate their values. We learned about *Sewa*, the Sikh belief in selfless service, and how it involves helping and supporting others in the community. We really enjoyed hearing first-hand experiences from our Sikh experts in the classroom. In music, we had great fun playing the glockenspiels. We began learning to recognise the notes on the keys and worked together to play part of a song. It was so much fun! This week, we also welcomed Steve from St John's Church, who delivered an exciting and engaging assembly about being a light for others and helping people on their journey. Afterwards, Steve visited Year 1 and taught us about the story of the Feeding of the 5,000. We then created thank you cards for the hardworking volunteers at the food bank who help provide food for those in need. This linked beautifully with our RE learning about helping others. Thank you to everyone who has donated to our Harvest Collection. Your generosity has been greatly appreciated. We hope you all have a wonderful weekend, and we look forward to seeing everyone on Monday. Miss Brett, Miss Delargy and Mrs Akthar

Year 2

What a fantastic week of learning we have had in Year 2! The children have worked brilliantly across all their lessons and should be very proud of everything they have achieved. In English, we have continued exploring *George and the Dragon*. On Monday, we took our learning outdoors and used our imaginations to transport ourselves into different settings from the story, including the cave, mountain and woods. We thought carefully about what we might see and hear in each setting and generated a range of exciting adjectives to describe them. Throughout the week, we continued developing our descriptive writing by using ambitious vocabulary, adjectives and adverbs. We also challenged ourselves to use conjunctions to extend our sentences and add more detail. On Thursday, the children had the opportunity to apply their Phase 2 phonics skills to independently write sentences based on part of the story. We were so impressed with their wonderful writing! In Maths, we have continued our unit on addition and subtraction. The children have been learning to add and subtract ones from a given number and have used their knowledge of number bonds to 10 to help them add numbers within 20. It has been wonderful to see their confidence and independence continue to grow.

NEWSLETTER

Issue Number 06 – Friday 9th October 2026

As scientists, we explored how animals get their food and discussed how all living things need energy to survive. The children created food chains to demonstrate how plants and animals depend on one another for food. We learnt that food chains usually begin with a plant and explored how plants get their energy from the Sun. We also discovered that plants are called producers, while animals are consumers because they eat plants or other animals. This week, we have also celebrated World Space Week! The children had the exciting opportunity to join a space-themed webinar, where they became space scientists and ocean detectives. It was a fantastic experience that encouraged lots of curiosity, questioning and excitement about our world and beyond! As historians, we continued investigating what happened during the Great Fire of London. The children discovered that Samuel Pepys' diary provides us with important information about the fire. We explored how different historical sources, including artefacts, written accounts and paintings, can help us learn more about events that happened in the past. In RE, we explored the question, 'Do all Christians use the Bible in the same way?' The children learnt that there are many different types and versions of the Bible and that it is an important book for many people with Christian worldviews. We also explored the story of Noah's Ark and discussed how the story demonstrates important qualities such as teamwork and resilience. In PSHE, the children have been learning about teamwork and cooperation. We discussed the importance of listening carefully, showing respect, taking on different roles, making decisions together and developing leadership skills. The children then put these skills into practice during an exciting team challenge! Working in small groups, everyone was given a role and had 10 minutes to make as many cupcakes as possible. It was wonderful to see the children supporting one another, communicating effectively and demonstrating fantastic teamwork while having lots of fun! Finally, in Music, the children continued exploring the song *Hey Friends*. We learnt that the song is in the jazz genre and discussed how it celebrates the enjoyment of singing, playing music and dancing with others. It was lovely to see the children joining in enthusiastically and showing such enjoyment throughout the lesson. Well done, Year 2. What a busy, exciting and successful week of learning! Miss Softic, Miss Bullock and Mrs Akthar

Year 3

Year 3 have enjoyed another busy and exciting week of learning! This week in English, we have delved into the wonderful world of poetry. We began by exploring the features of acrostic poems before having a go at writing our own. And what better place to start than with ourselves! We came up with some fantastic adjectives and phrases to describe our personalities and even used similes in our writing! We then linked our poetry to our learning about the African savannah, creating acrostic poems inspired by the incredible animals found there. We cannot wait to display these alongside our artwork in the hall over the coming weeks.

As mathematicians, we have been using our known number facts to help us add ones, tens and hundreds to 3-digit numbers. For example, if we know that $2 + 4 = 6$, we can use this fact to help us work out $222 + 4 = 226$, $222 + 40 = 262$ and $222 + 400 = 622$. In our reading comprehension lessons, we have been gripped by the first two chapters of *Ember Spark and the Thunder of Dragons*. Along the way, we have discovered the meanings of lots of new words, which is helping us to broaden our vocabulary.

NEWSLETTER

Issue Number 06 – Friday 9th October 2026

During R.E, we explored how nature and the seasons play an important role in Jewish worldviews. We learned about the festival of Passover and discovered how the moon plays an important part in the Hebrew calendar. As musicians, we put our knowledge of notes and beats into practice by reading rhythm cards and performing different rhythms using body percussion. On Wednesday, Steve from St John's Church led our assembly, where we reflected on the importance of light in our lives. We thought carefully about how we can also be a 'light' for others through showing respect, speaking kindly and making positive choices. Finally, to celebrate World Space Week, we enjoyed a wonderful afternoon learning all about space, including discovering how the Moon got its craters. We put our knowledge to the test with quizzes and even finished by singing a song all about the planets. It was certainly an out-of-this-world end to another fantastic week in Year 3! Well done, everyone. Mrs Nagra and Miss Palmer

Year 4

At the start of this week and linked to our Roman topic, the children have been writing some Kennings. A Kenning is a type of poetry that describes something without actually naming it. We started off by writing Kennings about ourselves before writing one about the Romans. The class have really enjoyed this topic and we've been very impressed with their creative use of language. Next week, we will be doing some writing linked to Black History Month. In maths, the children have continued to develop their column methods to add and subtract 2 four-digit numbers. As scientists, the children have investigated how water can be a solid, liquid and a gas. They have been introduced to the terms: melting, boiling, evaporation and condensation. As historians, the children have learnt about Roman forts in preparation for our visit to the Lunt Fort the week after next. In PSHE, the children have learnt about the value of money; in RE, they have considered whether or not food choices are always for religious reasons; and in computing, the children have found out if anyone owns the internet. Next week is art week in school and Year 4 will be designing and making their own mosaic. A reminder that we have PE on Monday and Friday afternoons – please can all children come in their PE kit on these days and remember to take their earrings out beforehand – thank you. Well done, Year 4 – another super week. Mr Kelley, Mrs Amphlett and Miss Palmer

Year 5

What an amazing week we've had in Year 5! On Monday, we headed on foot to St. John's Church, where we had a tour of the church and the Garden of Hope. We learnt about all the significant features and special items that are important to worshippers. The children also got to ask the vicar of the church some questions. Next, we walked to the Greek Orthodox Church, where we were given a tour and talked about important artefacts and areas of the church. The children did themselves proud on the trip and thoroughly enjoyed it. To follow up the trip the next day, we each created our own double-page spread to show what we had found out about the two churches. In maths this week, we have been using the inverse to check answers and applying our addition and subtraction skills to multi-step word problems. The children found this quite challenging but persevered. In English, we began creating our own creature for the fictional planet of Pandora. We used technical vocabulary to make notes about its appearance, habitat and feeding behaviour. As it is National Space Week, we got to watch an online live lesson called *Space Whales: Mission Ocean!* In geography this week, we have been thinking about how food is packaged and why we wrap a lot of it in plastic. First, we examined some real food packaging, recording which materials they are packaged in. We thought about the pros and cons of packaging and whether improvements could be made to make packaging more environmentally friendly. We are enjoying our music lessons and have been using the glockenspiels to play spooky musical riffs! We are all looking forward to art week next week. Have a lovely weekend. Mrs Aston, Mrs Reihill, Mrs Cleveland and Miss Uzzaman

Year 6

This week, Year 6 have been learning how to use parenthesis to add extra information to their writing. The children explored how brackets, dashes and commas can all be used to provide additional detail within a sentence. They then became prehistoric detectives during a dinosaur scavenger hunt, searching for a range of fascinating facts from a range of exciting library books. These facts will be put to good use as they begin writing their own non-chronological reports about dinosaurs next week. We are looking forward to seeing their informative reports take shape!

As mathematicians, Year 6 have been tackling long multiplication. The children have worked carefully through the different stages of the written method, thinking about place value and the importance of keeping their calculations accurately aligned. They have shown fantastic perseverance when taking on increasingly challenging calculations.

Our computing lesson focused on online communication. The children identified different ways that people can communicate using technology and considered whether these methods are public or private. They also explored the difference between one-way communication, where information is sent out to an audience, and two-way communication, where people can respond and interact. This prompted some thoughtful discussions about how we communicate in the digital world.

Issue Number 06 – Friday 9th October 2026

As scientists, Year 6 learnt about microorganisms and discovered that they can be found virtually everywhere, including on and inside our bodies. The children explored how some microorganisms can be harmful, causing disease or spoiling food, while many others are incredibly helpful, playing important roles in our bodies and the world around us.

It has been another week filled with curiosity and enthusiastic learning. Whether calculating with large numbers, investigating dinosaurs or discovering an invisible world of microorganisms, Year 6 have approached their learning brilliantly. Have a fantastic weekend, everyone. Mr Young and Mrs Kailey

Book of the week!

About this book: The words that we hear affect the way we feel. It's something we all know, but perhaps we don't stop to think about it enough. For instance, words can conjure a whole world of wonderful description and paint a picture in someone else's mind. When someone says something nice to us, it can make our hearts sing! But when people say mean things to us, it can also feel like our hearts are breaking. Words have great power – we can use them to make people feel stronger and happier – even laugh out loud and roll around!

Kenilworth Multi Academy Trust

ASPIRING TO EXCELLENCE THROUGH QUALITY, AMBITION AND INDEPENDENCE

Starting Secondary School in September 2027

Apply online at coventry.gov.uk/schooladmissions by **31 October 2026**

for children born between 1 September 2015 and 31 August 2016

31 October 2026	Closing date for all applications
31 December 2026	If you move house before the 31 December 2026 you MUST contact the School Admissions Team to update your address
1 March 2027	Result emailed by 5pm or details available in your online account

Key facts about the application process

- All parents of Year 6 pupils must apply for a school place through their Local Authority (the city where you live)
- Non-Coventry schools and Grammar schools can be listed on your application
- Even if you already have an older child at the school you must still apply for your younger child
- You should list three schools in order of preference, by not including three realistic preferences, it could result in your child being allocated a school some distance away. There is no advantage in listing fewer than three schools or including the same school more than once.
- If you live within a school catchment area you have more chance of your child being offered a place at that school if you request it and make your application on time. Information regarding the catchment area for your address can be found at coventry.gov.uk/catchmentareas

School Open Days are advertised at coventry.gov.uk/openevenings

Make your application on time to increase your chances of getting the school you want

Increase your chances of getting the school you want

A copy of the secondary school admissions booklet is on our website at coventry.gov.uk/schooladmissionsbooklets. Please consider each school's specific admissions arrangements carefully when making your application.

- Look at the over-subscription criteria in the policy to work out which priority would be given to your application
- Check how places have been allocated in the last 3 years
- Check your distance from the school. The Admissions team can confirm this for you, please email: 11plus@coventry.gov.uk stating 'distance query' in the subject box
- Compare your priority and distance with how places have been offered in previous years to get an indication of how successful your application might be
- Please check the details on applying for a faith school as they may require you to provide additional information as part of the application process

Please go to our website at coventry.gov.uk/schooladmissions for details on how to apply. For further help call School Admissions on 024 7697 5445
